- **00:00:55 Elizabeth Wilcox** (Resident of 4000 East Wilson Road)
 - Expressed concerns regarding a project planned near her neighborhood. Highlighted issues with the local infrastructure, noting that East Wilson Road is essentially a narrow, unpaved or unimproved one-lane road with high water tables, wetlands, and an adjacent natural gas pipeline. She raised safety concerns regarding children playing in the street and potential disruptions to daily commutes and school transport if road resurfacing or construction occurs.
 - **00:02:54 Chris Hyatt** (Key Enterprises, 1716 North Wheeling)
 - Inquired about logistics and return-on-investment policies regarding private sewer connection infrastructure. He noted he is currently investing approximately \$400,000 into property improvements at Centennial and Wheeling Avenue and has spent over \$30,000 installing two new manholes and 200 feet of sanitary sewer on private property to connect to district infrastructure. He asked the board to clarify its position on developer reimbursement, installment plans, or credits should future developments (such as a hotel or apartments) tie into the infrastructure he funded.
