 - **Deliberation Summary:** Mr. Ingram explained that aluminum sulfate is utilized to remove phosphorus from wastewater to comply with federal and state permit requirements prior to discharge into receiving streams. Bids for the supply contract were opened publicly:
 - *Pinco*: No bid
 - *Chem Trade*: Estimated total cost of \$111,082.18
 - *USA Bluebook (USA Elco)*: Estimated annual cost bid of \$136,812.61
 - *Brentag Mid-South*: No bid
 - **Item-Specific Public Input:** None.

6. Administrative Updates & Adjournment

- **Staff / Board Announcements:**
 - **District Administrator Update (00:02:53):** Rick Conrad reported on traffic lane restrictions on East Jackson (near the White River Bridge and between Lincoln and Bunch) due to tieback levee construction. He highlighted in-house construction crew savings (noting projects near Wolf for storm water manholes, 9th and Mulberry, and 12th Street lane restrictions between Macedonia and Penn). He also noted that the Department of Local Government Finance (DLGF) projects sanitation department budgets will be roughly 4% lower in 2026 under State Enrolled Act One, which can be absorbed next year, though structural shortfalls over a three-year horizon will require funding adjustments.
 - **Board Announcements (00:13:36):** District employees were reminded to complete the anonymous employee feedback survey. The board also recognized and thanked Maggie, Office Manager, for her administrative support across the district.
- **Adjournment:** The meeting was adjourned by voice vote at 00:14:46.
