 - **Deliberation Summary:** Discussion regarding a financial plan totaling \$2,218,015.86. A citizen raised concerns that an amended plan submitted on November 18th eliminated a project and shifted money into 2020, despite \$49,000 already having been spent on the project that year. The board and speaker discussed the need to re-amend the plan to properly cover the existing claims.

 - **Action & Vote Disposition:** Unspecified / Ongoing administrative adjustment.
-

5. Open Public Comment / Citizen Forum

- 00:07:12 **Karl Gregory (Resident, Clara Smithville Pike / Winter Road area):**
 - **Topic:** Drainage and flooding problems caused by recent county/township drainage work.
 - **Key Concerns:** Mr. Gregory stated that approximately 12 years ago, a ditch was created to direct water down the side of the road past his property rather than into his woods. However, recent work by four trucks last week involved digging up and replacing a pipe due to complaints from Liberty Township/a corner resident. Mr. Gregory reported that the work created a large pond-like trench on his side of the road (which sits lower), causing standing water to ruin his woods and driveway. He noted that no trenching was done on the opposite side of the road to balance the flow, and residents were not notified prior to the work.
 - **Board Response:** Staff members (including references to Bob, Tommy, and Mitch) listened to the complaints, discussed the natural flow of water, driveway culvert pipes, leaf blockages, and county regulated drains. Officials agreed to take down his information, look at site pictures provided by his wife, and coordinate with Bob and Tommy to investigate a solution.
-

6. Administrative Updates & Adjournment

- **Staff / Board Announcements:** Board officials committed to investigating the drainage complaint on Clara Smithville Pike/Winter Road.

- **Adjournment:** The transcript ends abruptly during the conclusion of the public comment exchange; official adjournment time and disposition were not recorded.
