The More Avenue intersection involves a cantilever arm signal installation, while Carrington Boulevard involves asphalt widening and pavement markings for a new left-turn lane. Construction was originally slated for 2019 but was delayed due to AEP utility relocation conflicts and transmission line betterment projects, alongside a busy 2019 construction market. A revised cost estimate placed the project at \$536,700 (an increase of \$104,000 from the February 2019 estimate) due to higher unit prices. Bids were set to be opened later in January, with construction targeted from late March/early April to Memorial Day 2020.

- **Deliberation Summary:** Staff briefed the board on the gravel alignment road leading to the industrial rail spur acquired from Alta on the south side. The project originated as a County Commissioners project, and bids were being opened by the County Commissioners. If bids are favorable, the commissioners may forward the request to fund the gravel road and its significant drainage infrastructure to the Redevelopment Commission at the February meeting, utilizing remaining TIF funds from Park 1.
 - **Item-Specific Public Input:** None.
 - **Action & Vote Disposition:** Informational briefing only; no formal board action taken.
 - **00:24:00 Annual TIF Area Financial Report & Analysis Presentation**
 - **Sponsor / Presenter:** Financial Consultants / Advisors (Brad, Lauren, and Vaughn).

Key areas reviewed included the Muncie area, Newnet / Industrial Center areas, Prall, and various legacy TIF districts. Consultants emphasized that maintaining these predictive financial models serves as an essential best practice for transparency and responding to public or developer inquiries.
