 - **Sponsor / Presenter:** Matt (IT Committee / Job Compensation Committee).
 - **Deliberation Summary:** Matt reported on IT staffing updates following the expiration and non-renewal of Tim Fluke's contract at year-end. Two former staff are returning as contract employees (Steve Adams under Kyle for public safety, and Bruce Hackler under the auditor/assessor/treasurer), and two are becoming direct employees (Eva for help desk support, and Ryan Stoultz as full-time IT supervisor/coordinator). Two positions (help desk support and network administrator) are currently posted. Additionally, new members were added to the IT committee (community cybersecurity expert Mr. Chester, state IoT representative Brett Edstein, and Judge Mayor). The compensation committee reviewed related job descriptions including IT supervisor, network system administrator, help desk support, a new GIS specialist position (noted to be a 40-hour work week via a friendly amendment, correcting a 29-hour discrepancy), a part-time highway maintenance/custodian position, and a home detention supervisor position.

Minor discrepancies between job classification base salaries and transfer dollar amounts were identified (e.g., flip-flopped figures between funds for IT Supervisor and Network Administrator). The Auditor's Chief Deputy (Tanya Dunmore) and council agreed to approve the transfers as-is to establish the line items and process current payroll via Personnel
