- **Sponsor / Presenter:** Staff / Engineering representative (Rich).
- **Deliberation Summary:** The board voted to take the County Road 600 West project off the table to discuss revised scenarios. Due to cost concerns regarding the previously proposed roundabout, two revised options for a standard intersection were developed: (1) a totally locally funded project, or (2) a partially locally funded project utilizing federal assistance for construction and construction inspection while funding the design locally. Staff recommended the federal assistance route to save the county between \$950,000 and \$1.2 million, noting a total design request of \$625,500. Board members questioned the underlying safety justification, noting that traffic studies did not show high crash volumes, though police and staff emphasized operational and truck-turning issues. Letters of support from Yorktown and Daleville were noted.
