Delaware County Redevelopment Commission <U+2014> Regular Meeting Summary

Meeting Date: June 11, 2026

Body: Delaware County Redevelopment Commission

1. Meeting Identification & Attendance

- **Call to Order & Spoken Details:** Presiding Officer called the June 11, 2026 meeting of the Delaware County Redevelopment Commission to order at [00:10:56](#).
- **Attendance:**
 - **Members Present:** Mr. Keesling, Commissioner Brand, Mr. Wiggerly, and Miss Green (Presiding Officer).
 - **Members Absent:** Commissioner Henry (noted later in the transcript at [00:05:05](#)).

2. Preliminary & Procedural Business

- **Ceremonial Openings:** The meeting opened with the Pledge of Allegiance [00:10:58](#).

- **Approval of Minutes:** 00:11:39 Minutes from the May 14th meeting were approved by roll call vote (Yes: Mr. Keesling, Commissioner Brand, Mr. Wiggerly, Miss Green).
-

3. Substantive Business & Board Action

- **00:12:00 2027 Pass-Through Determination Letters**
 - **Sponsor / Presenter:** Matt Eckerly, Baker Tilly (Financial Advisor).
 - **Deliberation Summary:** Eckerly presented the mandatory annual finding regarding the capture or pass-through of eligible incremental assessed value for the commission's tax increment allocation areas ahead of the June 15 statutory deadline. He highlighted a new state requirement under which missing this deadline incurs an automatic 5% pass-through penalty per allocation area, risking bond payments. Historically, the commission passed through 100% of eligible incremental value in the Bio-Vision/Eaton-A-Park allocation area and homestead incremental value in the Morrison Road allocation area (two legacy areas established before July 1, 1995). Eckerly noted that continuing to pass through Morrison Road still leaves ample revenue for bonds and pay-as-you-go projects, though new homestead deduction structures (SEA 1) will steadily reduce these impacts over time. Board members discussed whether to capture these funds to benefit overall taxpayers versus maintaining historical pass-through norms.
 - **Action & Vote Disposition:** Motion made to treat the Morrison Road and Bio-Vision/Eaton-A-Park TIF districts like all other districts (no pass-through / capture 100%). Passed 3-1 (Yes: Mr. Keesling, Commissioner Brand, Miss Green; No: Mr. Wiggerly) 00:25:21.
- **00:25:44 America's Hometown Band Request**
 - **Sponsor / Presenter:** Roger McConnell (Musician / Band Representative).
 - **Deliberation Summary:** McConnell requested \$10,000 to renew financial support for two community concerts to address a two-year budget shortfall. Board members noted that Yorktown already receives substantial funding from the commission, leading to limited appetite for funding a Yorktown venue, but expressed strong support for expanding musical programming into Albany.
 - **Action & Vote Disposition:** Motion to approve \$5,000 specifically for the Albany concert (funded via Bell-Perch or the Magna-Tiff bond). Passed unanimously by roll call vote 00:32:32.
- **00:33:15 Innovation Connector Funding Request**
 - **Sponsor / Presenter:** Ted Baker, CEO of the Muncie Innovation Connector.
 - **Deliberation Summary:** Baker presented an update on client services, small business support, and upcoming community celebrations, requesting \$75,000 for the upcoming year to cover building capital expenses (roof repairs, HVAC) and administrative/succession transitions. Board members raised concerns regarding

long-term tenant turnover, lack of requested financials from the prior year, and the timing of future rent increases.

- **Action & Vote Disposition:** An initial motion to approve the full \$75,000 failed 3-0 (No: Mr. Keesling, Commissioner Brand, Mr. Wiggerly, Miss Green abstaining/voting no via subsequent context). A subsequent motion by the President to approve \$25,000 immediately, contingent on receiving updated financials and implementing a rent increase before considering a potential additional \$25,000 later in the year (funded half from Magna-Tiff and half from Morrison), passed by roll call vote [00:56:39](#).
- **00:57:14 Resolution No. 2026-010: Highway Department Mower Max Purchase**
 - **Sponsor / Presenter:** Board Leadership / Highway Department.
 - **Deliberation Summary:** Resolution formally pledging funds for a previously approved Mower Max boom mower for the highway department, utilizing TIF funds from PRL, Fountain Square, and Midwest Metal totaling \$267,418.62 (with the highway department contributing over \$50,000). Delivery is estimated in roughly six weeks.
 - **Action & Vote Disposition:** Approved by roll call vote [00:18:22](#) (Yes: Mr. Keesling, Mr. Wiggerly, Miss Green / Brand).
- **00:58:33 Resolution No. 2026-11: Rescinding Remaining Funds for Senior Citizen Center**
 - **Sponsor / Presenter:** Gina Caravalia / Board Leadership.
 - **Deliberation Summary:** Resolution to rescind the remaining unutilized portion (\$24,605.88) of an original \$30,000 pledge to the Muncie-Delaware County Senior Citizen Center. Executive Director Julie Miller requested the withdrawal following the closing of their building sale and zoning exception approval. This action cleans up recordkeeping and project obligation trackers across Industrial Center, Morrison Road, Midwest Metal, and PRL New Brevini TIFs.
 - **Action & Vote Disposition:** Approved by roll call vote [01:00:11](#).
- **01:00:18 Resolution Rescinding Living Green Farms Economic Development Agreement**
 - **Sponsor / Presenter:** Board Leadership / Gina Caravalia.
 - **Deliberation Summary:** Rescinding an old economic development agreement and \$1 million structural repair pledge for LGF Properties Muncie LLC (Living Green Farms) due to a change in building use, occupancy, and a prior legal challenge between Delaware County and Garmon over structural steel that was mutually terminated. The underlying bond remains in place, but this action clears the unused reserve pledge.
 - **Action & Vote Disposition:** Approved by roll call vote [01:02:15](#).
- **01:02:40 Highway Department Road Paving List Addition**
 - **Sponsor / Presenter:** Dean Thomas, Delaware County Engineer, alongside Commissioner Brand.

- **Deliberation Summary:** Thomas requested additional funding of \$620,939.42 to catch up on failed and very poor roads (Pacer ratings of 3 and under) originally planned for 2026 paving but dropped due to budgetary shortfalls. Board members discussed systemic challenges, including heavy truck traffic cutting through county roads and dwindling gas/CCMG tax projections.
 - **Action & Vote Disposition:** Motion to approve \$620,939.42 for the highway department road paving list, funded across Magna Tiff, Morrison, Midwest Metal, Progress Rail, and Fountain Square TIFs. Passed by roll call vote [01:10:37](#).
- **01:11:03 Table Business: (10A) EDA 2026 Redevelopment Services Agreement**
 - **Sponsor / Presenter:** Tracy Lutton, Economic Development Alliance (EDA).
 - **Deliberation Summary:** Lutton presented a revised proposal for administrative and governance services through the end of calendar year 2026. The gross request of \$44,371 was adjusted downward by a \$16,000 credit reflecting operational surpluses from the prior year, bringing the net request to \$28,371. Board members questioned professional development line items (specifically OEDI training costs), but ultimately supported the retention of EDA services.
 - **Action & Vote Disposition:** Approved by roll call vote [01:17:30](#).
- **01:17:43 Table Business: (10B) Yorktown Interlocal Agreement and Invoice / Park One Water Issue**
 - **Sponsor / Presenter:** Chase Brutin (Yorktown Town Manager), Dean Thomas (County Engineer), and Mr. Case (3D).
 - **Deliberation Summary:**
 - *Oliver Project Interlocal:* Discussed a 10-year interlocal agreement established in 2020 (\$1.3M year one, \$300,000 annually thereafter) supporting the Oliver building bond in Yorktown. Confusion arose regarding whether payments were historically routed through EDIT or TIF, and why invoices for the past two years were missed. The board voted to table further action to allow the auditor's office to research fund mapping.
 - *Park One Water Leak:* Excavation for the new Park One entrance revealed an ongoing water line leak under State Road 332 supplying North Edge Steel. Yorktown operates the Park One water system at a financial loss and noted the repair cost exceeds normal operating margins. Engineering consultants (3D / Structure Point) noted the leak is causing subgrade and soil stability issues for the second entrance construction. The board agreed that while Yorktown and the town council must address the underlying water line repair, the immediate project priority is installing a subsurface drain within existing project contingencies to keep the road construction on track without halting the project.
 - **Action & Vote Disposition:** Motion to table the Yorktown interlocal agreement and invoice discussion pending auditor research. Approved by voice/roll call vote [01:31:12](#).

- **01:47:57 9175 South Innovation Drive (Daleville Property) Inquiries**
 - **Sponsor / Presenter:** Gina Caravalia / Board Leadership / Brian Allard / Grant Smith.
 - **Deliberation Summary:** The commission reviewed two unsolicited interest letters for the 7.43<U+2013>8.33 acre Daleville property (previously appraised at \$850,000):
 1. Ace Carports (Alejandro Gonzalez) offered \$336,000 (\$76,000/acre) for a 4.4-acre western parcel.
 2. Jim Reed (represented by Brian Allard, with Truman Tool co-owner Grant Smith present) offered \$500,000 (\$62,500/acre) for the entire acreage to protect adjacent investments and allow future business warehousing/expansion. Board members discussed site access limitations, narrow rights-of-way, and a desire to explore full market potential or make strategic counter-offers rather than immediately splitting the parcel.
 - **Action & Vote Disposition:** Motion to table the property inquiries for further review of offers and marketing strategies. Passed by roll call vote **02:00:52**.
 - **02:01:12 Invoices**
 - **Action & Vote Disposition:** Approved as presented by roll call vote **02:01:21**.
 - **02:04:47 Additional Board Items: Railroad Force Account & Supplemental Agreements**
 - **Sponsor / Presenter:** Board Leadership.
 - **Deliberation Summary:** The board reviewed required Norfolk Southern railroad documentation for trail crossings (Cowen and 23rd Street MIC2 trail expansion), including a draft force account estimate and a \$5,000 product engineering supplemental agreement for drawing reviews.
 - **Action & Vote Disposition:** Motion to approve the draft force account estimate and product engineering supplemental agreement. Passed by roll call vote **02:06:33**.
-

4. Open Public Comment / Citizen Forum

- **02:02:02 Ricky Newsman:** Addressed the commission regarding historical infrastructure gaps near the interstate, water utility rate challenges in Yorktown, development surrounding data centers and new manufacturing (Muncie Power Products), and suggested returning TIF revenues or operational control of Park One back to local towns.
-

5. Administrative Updates & Adjournment

- **Staff / Board Announcements:**
 - Noted upcoming events including the Innovation Connector's community celebration.

- Brief updates provided on the Isaiah 117 House project, LJ Manufacturing construction progress, and pedestrian footbridge maintenance tracking.
 - Future agenda items noted for upcoming July meetings (including MDs property inquiries and CREED Fountain Square TIF repayments).
 - **Adjournment:** The meeting was officially adjourned [02:09:46](#).
