After the county threatened condemnation via social media and formal notices in June, corporate leadership responded. The preliminary engineering agreement is a statutory, non-negotiable "up to \$15,000" cost required for Norfolk Southern to review the trail crossing design and ensure compliance with Federal Railroad regulations.
 - **Item-Specific Public Input:** None.
 - **Action & Vote Disposition:** Approved by Voice Vote (00:08:54).

 - **Sponsor / Presenter:** Daniel (representing the Regional Wastewater District).

- **Deliberation Summary:** Staff provided an informational update regarding a two-year-old pledge made by the Redevelopment Commission to assist Wasson Nursery with sewer extensions for their expansion. Per prior agreements, Wasson was to construct the line and dedicate it to the Regional Wastewater District for ongoing maintenance. However, investigations revealed that Wasson never secured a formal right-of-way easement across approximately 1,200 feet of a farmer's property, and has failed to provide inspection reports or complete the dedication. The affected farmer has contacted the district seeking resolution.
 - **Item-Specific Public Input:** None.
 - **Action & Vote Disposition:** Approved by Voice Vote (00:14:14) to authorize legal counsel to send a formal reminder letter directing Wasson Nursery to complete right-of-way acquisition and transfer the lines.
 - **00:14:25 Delaware County Highway Department Paving Request**
 - **Sponsor / Presenter:** Tommy (Highway Department).
 - **Deliberation Summary:** Presented the annual paving request list. Tommy noted an oversight regarding milling costs for Tison Street between Highway and 26th Street, which added roughly \$26,000 to the original request, bringing the updated total to \$222,000 (referenced also as \$248,000 in discussion context). Sufficient funds exist within the industrial center area TIFs to cover the cost. Striping will be handled in-house.
